Journal of Industrial Ecology	Blackwell Publishing	1997	Journal of Industrial Ecology is an international, multi-disciplinary quarterly designed to foster both understanding and practice in the emerging field of industrial ecology. The journal addresses a series of related topics: material and energy flows studies ("industrial metabolism"); dematerialization and decarbonization; life cycle planning, design and assessment; design for the environment; extended producer responsibility ("product stewardship"); eco-industrial parks ("industrial symbiosis"); product-oriented environmental policy; and eco-efficiency. Since its premiere in spring 1997, the journal has provided a forum for continuing exchange of information and opinions through contributions from scholars, environmental managers and policymakers, advocates, and others involved in environmental science, management, and policy.	Wiley	1530-9290	Vollzugriff	A	2,276	http://onlinelibrary.wiley.com/journal/10.1111/%28ISSN%291530-9290
Business & Society	SAGE Publications	1960	<i>Business & Society (BAS)</i> , peer-reviewed and published quarterly, is the official journal of the International Association for Business and Society, the only independent professional association dedicated to business and society teaching and research. <i>BAS</i> focuses on original research relating to business ethics, business-government relations, corporate governance, corporate social performance, and environmental-management issues.	Sage	1552-4205	Vollzugriff	B	1,936	http://bas.sagepub.com/
Business Ethics Quarterly	Philosophy Documentation Center	1991	<i>Business Ethics Quarterly (BEQ)</i> is a peer-reviewed scholarly journal that publishes theoretical and empirical research relevant to the ethics of business. Since 1991 this multidisciplinary journal has published articles and reviews on a broad range of topics, including the internal ethics of business organizations, the role of business organizations in larger social, political and cultural frameworks, and the ethical quality of market-based societies and market-based relationships. It recognizes that contributions to the better understanding of business ethics can come from any quarter and therefore publishes scholarship rooted in the humanities, social sciences, and professional fields.		1052-150X	Vollzugriff	B	2,2	http://www.researchgate.net/journal/1052-150X-Business-Ethics-Quarterly
Business Strategy and the Environment	John Wiley & Sons	1992	Business Strategy and the Environment (BSE) is the leading academic journal in its field with peer-reviewed contributions of a high quality. It seeks to provide original contributions that add to the understanding of business responses to improving environmental performance. It seeks to examine links between competitive strategy and environmental management as well as providing results of research into systems and standards, corporate environmental management tools, organisations and management, particular industry sectors and responses of business to contemporary environmental issues. It examines the role of regulation and policy in the business sector and encourages cross-country analysis. Contributions are encouraged which extend the scope of activity from environmental management to sustainable development in business. The journal should be of interest to a broad interdisciplinary audience including academics, practitioners, business managers and consultants.	Wiley	1099-0836	Vollzugriff	B	3,236	http://onlinelibrary.wiley.com/journal/10.1002/%28ISSN%291099-0836
Ecological Economics	R.B. Howarth	1989	Ecological economics is referred to as both a transdisciplinary and interdisciplinary field of academic research that aims to address the interdependence and coevolution of human economies and natural ecosystems over time and space. It is distinguished from environmental economics, which is the mainstream economic analysis of the environment, by its treatment of the economy as a subsystem of the ecosystem and its emphasis upon preserving natural capital. One survey of German economists found that ecological and environmental economics are different schools of economic thought, with ecological economists emphasizing strong sustainability and rejecting the proposition that natural capital can be substituted by human-made capital. Journal of World Business	F. Luthans, J.W. Slocum Jr.	1997	Formerly the Columbia Journal of World Business, the journal's editors are committed to build on the past strengths to make the all new Journal of World Business the premier source of information on international business going into the 21st century. The scope and perspective will be to use sound theory and basic research findings as a point of departure for exciting new breakthroughs in the development and practice of international management and marketing. With specifically designated editorial boards to recognize the importance of both the Pacific Rim and European contributions to world business, the structure of the editorial team and the new domain of JWB focuses on international HRM, marketing and strategic issues, broadly defined. International Journal of Innovation and Sustainable Development	Prof. Walter Leal Filho	2005	<i>IJISD</i> focuses on broad aspects of innovation and sustainable development. It fosters discussion not only on technological innovation but on new ways of thinking about the complex and contested issues of sustainable development. Innovative thinking and practices in areas of economics, policy-making, legislation, health, education and the institutional barriers to sustainable development form the basis of the discourse to be fostered.	Inderscience	1740-8830	kein Zugriff	C		
Journal of Business Ethics	Alex C. Michalos	1982	The <i>Journal of Business Ethics</i> publishes only original articles from a wide variety of methodological and disciplinary perspectives concerning ethical issues related to business that bring something new or unique to the discourse in their field. Contributors examine moral aspects of systems of production, consumption, marketing, advertising, social and economic accounting, labor relations, public relations and organizational behavior. In order to promote a dialogue between the various interested groups as much as possible, papers are presented in a style relatively free of specialist jargon. Journal of Cleaner Production	D. Huisingh	1993	The Journal of Cleaner Production serves as an interdisciplinary, international forum for the exchange of information on the technologies, concepts and policies designed to help ensure progress towards sustainable societies. It aims to encourage industrial innovation, new and improved products, and the implementation of new, cleaner processes, products and services. It is also designed to stimulate the development and implementation of prevention oriented governmental policies and education programmes. Cleaner production is a concept that goes beyond simple pollution control. It involves active research and development into new processes, materials and products which are more resource and energy efficient. Prevention is increasingly becoming the primary corporate and government approach for ensuring environmentally friendly and economically sound production and service provision strategies. Authors are invited to submit papers from the following areas: INDUSTRIAL APPLICATIONS including: Source Reduction process design modifications, incorporating "environmentally friendly" technologies equipment, piping or layout changes automation and control use of new technologies Environmental Management Initiatives environmental management systems environmental performance evaluation environmental reviewing and auditing life cycle assessment Operating Practices material handling production scheduling procedural measures management and better optimization by-product separation material changes/substitution product specification CLEANER PRODUCTION METHODS AND TOOLS including: product design and redesign environmental software waste minimization assessment environmental reviewing and auditing life cycle assessment and product improvement analyses risk reduction analyses total cost assessment LEGISLATION, POLICY AND REGULATION regulatory and policy initiatives designed to promote implementation of proactive and preventive approaches throughout society EDUCATION, TRAINING AND LEARNING kindergarten through university level education and life-long continuing education initiatives to promote sustainable societies	Elsevier	0959-6526	Vollzugriff	C	3,398	http://www.researchgate.net/journal/0959-6526_Journal_of_Cleaner_Production
Journal of Environmental Economics and Management	Daniel J. Phaneuf	1974	Journal of Environmental Economics and Management The Official Journal of the Association of Environmental and Resource Economists The Journal of Environmental Economics and Management is devoted to the publication of theoretical and empirical papers concerned with the linkage between economic systems and environmental and natural resources systems. Generally regarded as the top journal in natural resources and environmental economics, it concentrates on the management and/or social control of the economy in its relationship with the management and use of natural resources and the natural environment. Providing worldwide coverage of the field, the Journal includes articles by economists as well as interdisciplinary papers by researchers in other fields of interest to resource and environmental economists.	Elsevier	0095-0696	Vollzugriff	C	2,17	http://www.researchgate.net/journal/0095-0696_Journal_of_Environmental_Economics_and_Management
Journal of Macromarketing	Terrence H. Witkowski	1981	<i>Journal of Macromarketing (JMK)</i> , peer-reviewed and published quarterly, examines important social issues, how they are affected by marketing, and how society influences the conduct of marketing. Though primarily a marketing journal, <i>JMK</i> also encompasses a wide range of social science and business disciplines, including management, economics, sociology, and history.	Sage	0276-1467	Vollzugriff	C	1,14	http://www.researchgate.net/journal/0276-1467_Journal_of_Macromarketing
Society and Business Review	Wiley Blackwell	2006	SBR aims to cultivate and share knowledge and ideas in order to assist businesses to enhance their commitment in societies. Being international in outlook and interdisciplinary in scope, the journal seeks to provide a platform for diverse academic and practitioner communities to debate a broad spectrum of social issues and disciplinary perspectives, globally. Business Ethics - A European Review	Christopher Cowton	1992	Business Ethics: A European Review is a quarterly review which aims to promote dialogue at every level on all issues relating to ethics in business. Its focus is primarily though not exclusively European. Its objectives are: to provide a forum for the exchange of views on and experiences of ethical problems and their solutions to be the publication outlet of choice for original research and the reporting of research in progress to offer rigorous and informed analysis of ethical issues and perspectives relevant to organisational processes and policies to promote good ethical thinking and practice at corporate and individual levels by providing readable commentaries on current issues and developments. to be responsive to changing concerns and to seek to reflect these in the balance of contributions. Business Ethics: A European Review provides a forum for business people and academics to exchange experiences of ethical challenges to debate perspectives on ethical issues and to generate insights and new ways of thinking about the ethical dimensions of national and global business. The journal is now entering its tenth year and is well established as an academic research journal which is at the same time readable user-friendly and authoritative. The range of contributions reflects the variety and scope of ethical issues faced by business and other organisations world-wide and at the same time seeks to address the interests and concerns of the journal's readership. "A very welcome development that fills a real gap intelligently and with style." The Times Educational Supplement "outstanding for its quality of material in jargon-free English drawing on writers from all over Europe and from across the Atlantic." David J. Murray Ethics in Organizations Kogan Page 1997 p. 167.	Wiley	1467-8608	Vollzugriff	D	0,544	http://onlineibrary.wiley.com/journal/10.1111/%28ISSN%291467-8608
Corporate Governance: International Journal of Business in Society	Kakabadse, A. / Kakabadse, N. K.	2001	Corporate Governance: the International Journal of Business in Society will lead the international debate on board performance, corporate responsibility and CEO effectiveness through practical, real-world discussions and analysis of past, present and future concern. The journal will provide the most informed analysis, sound research, penetrating insights and practical case study experience available, whilst placing emphasis squarely on practicality and application in real world organisations. This will enable you to track new research findings and emerging trends and, through case study examples, assess how world-leading organisations are successfully addressing corporate governance issues. The journal's brief is wide ranging but the concerns are to integrate the challenges of people, profitability, planet and posterity under the umbrella of responsible corporate governance. Corporate Social Responsibility and Environmental Management	A.L. Gill	1993	Corporate Social Responsibility and Environmental Management provides a practical resource for the ever increasing number of organisations concerned about social and environmental responsibilities in the context of sustainable development and are interested in developing tools to improve their performance and accountability in these areas. The focus of the journal is on practical advice for the development of tools, practical case studies and an assessment of the relative strengths and weaknesses of different approaches. It encourages debate over the development of issues as well as monitoring the demands being made of various stakeholder groups. It discusses issues of methodology, principles, practice, science, technology and law. It is a refereed journal and contributions of a high quality aimed at an interdisciplinary audience are invited. GAIA - Ökologische Perspektiven in Natur-, Geistes- und Wirtschaftswissenschaften		1992	Humankind faces an ever increasing destruction of the natural foundations of life-a threat that is self-inflicted. One of the principal causes of this destruction is the blind economical exploitation of scientific and technological findings. On the other hand, it is obvious the problems at issue cannot be managed without the sensible use of scientific and technical means. The sciences, being separated into distinct disciplines, are insufficiently prepared to cope with complex environmental tasks. Ecological problems can only be solved through transdisciplinary cooperation, exceeding subject areas. Since 1992 GAIA - Ecological Perspectives in Science, Humanities, and Economics has met this challenge. It has encouraged the development of an integrated environmental science and an ecologically conscious economy. Thereby, transdisciplinarity is GAIA's central theme: The journal brings forward the technical exchange between the sciences as well as between science and society.	Ökom Verlag	0940-5550	kein Zugriff	D	1,2	http://www.researchgate.net/journal/0940-5550_Gaia_Okologische_Perspektiven_in_Natur-Geistes-und_Wirtschaftswissenschaften
Greener Management International		1996	First published in 1993, Greener Management International: The Journal of Corporate Environmental Strategy and Practice (GMI) is the leading quarterly management journal drawing together strategic environmental and sustainability issues as they affect organisations worldwide. GMI enjoys a global reputation for innovation, readability and quality. With an international Editorial Board of over thirty professional and academic experts, GMI maintains rigorous standards for contributions. Following the continued success of its themed issues, GMI now focuses entirely on producing four theme issues a year. These innovative, cutting-edge editions have been widely praised and provide subscribers with unique global perspectives on the issues that matter in corporate sustainability. International Journal of Business Environment	Prof. Dr. Francisco J. Martínez-López	2006	Environmental dynamism is a widely-explored construct in organisation theory/strategic management literature. It has growing importance according to the degree of instability/turbulence of such key operating concerns as market/industry conditions as well as more general technological, economic, social, political forces. An organisation's ability to adapt to changing environmental circumstances is key to survival. <i>IJBE</i> examines how firms behave under different types of environment and the external influences on businesses. It addresses a wide variety of business decisions/processes/activities within the business environment.	Inderscience	1740-0589	kein Zugriff	D		
Journal of Consumer Affairs		1967	The <i>Journal of Consumer Affairs</i> seeks to make available high quality research on consumer behavior, consumer and household decision making, and the implications of private business practices and government policies for consumer's wellbeing. Research published in the journal focuses on protecting consumer's interests and is addressed from the consumer's point of view.	Wiley	1745-6606	Vollzugriff	D	1,047	http://onlinelibrary.wiley.com/journal/10.1111/%28ISSN%291745-6606/
Journal of Consumer Policy	Darren Dahl	2004	The Journal of Consumer Policy examines the behavior of consumers and producers, and fosters communication among parties in the marketplace. It explores consumer dependence on existing social and economic structures, helps to define consumer interests, and discusses ways in which consumer welfare can be fostered - or restrained - through actions and policies of consumers, industry, organizations, government, educational institutions, and mass media. Coverage includes the impact of new technologies; market regulation and deregulation; internationalization; consumers in less affluent societies; environmental and gender issues; public sector products and services; consumer organizations and agencies; product safety and liability; and interaction of consumption, work and leisure. The Journal reports on legal policy, and analyzes trends in implementation of consumer law. It also considers the supply-side impact of consumer legislation and discusses consumer policy in different parts of the world. Zeitschrift für Wirtschafts- und Unternehmensethik		2000	Die <i>zfwu</i> ist eine wissenschaftliche Fachzeitschrift. Durch ihre interdisziplinäre theoretische und praktische Ausrichtung an der Schnittstelle von Ökonomie und (praktischer) Philosophie stellt sie in erster Linie der Wissenschaft, aber auch interessierten Vertreterinnen und Vertretern von Wirtschaft, Politik sowie anderen relevanten Institutionen ein wirtschaftsethisches Diskussionsforum auf hohem Niveau zur Verfügung. Publikationssprachen sind Deutsch und Englisch. Die <i>zfwu</i> erscheint dreimal im Jahr. Die Hefte stehen in der Regel unter einem Themenschwerpunkt; sie bieten jedoch genug Raum für die Publikation auch nicht-themenspezifischer Beiträge. Jede Ausgabe wird durch den "Hauptbeitrag" einer/eines renommierten Wissenschaftlerin/ Wissenschaftlers eröffnet, dem weitere "Beiträge" folgen. Hauptbeitrag und Beiträge werden in der Regel durch ein Korreferat kritisch kommentiert. Die Rubrik "Praxis" reserviert in jeder Ausgabe Platz für einen Artikel aus der Praxis bzw. mit ausgeprägtem Praxisbezug und/oder für die Vorstellung eines Praxisprojektes. Weiterhin wird in jeder Ausgabe ein Dissertationsprojekt vorgestellt.	Rainer Hampp	1439-880X	Vollzugriff	D

Issues in Social and Environmental Accounting		2007	Issues In Social and Environmental Accounting (Issues in SEA) is an international journal published quarterly. Issues in SEA is networking and dissemination means of practices and theory of social and environmental accounting by people concerned with that field. In the journal, prospective authors can view the company's social and environmental performance from management or financial accounting perspective. The parties involved in this journal are scholars from so many countries, including: Indonesia, USA, Canada, UK, Mexico, Australia, New Zealand, Belgium, Ireland, Korea, Jordan, Mexico, Hong Kong, China, Austria, Malaysia, Japan, and India. Problems of social and environmental in general and in accounting context in specific are not only local problem, but they have also embraced all over the world. It is necessary for us to share and cooperate to make better the corporate financial, social and environmental performance reflecting the three Ps: profit, people, and Planet. We highly hope you, as one of people who are very concerned with the dissemination of that field, can share to achieve this goal. Issues in SEA is a peer-reviewed or refereed journal. All articles submitted by potential contributors from all over the world to the center (Indonesian Centre for Social and Environmental Accounting Research and Development (ICSEARD)) are administered by editors. They are then evaluated using the blind review method. From the result of peer-reviewing process the articles could be categorised as accepted for publication, accepted with minor revision, accepted with major revision, or rejected for publication. The Centre then produces the refereed articles by editorial boards and approved by editors advisors in form of the internationally accepted journal.		1978-0591	Vollzugriff über http://www.iiste.org/Journals/index.php/ISEA	Kein		
Journal of Corporate Citizenship		2001	The Journal of Corporate Citizenship focuses explicitly on integrating theory about corporate citizenship with management practice. This means that the journal provides a forum in which the tensions and practical realities of making corporate citizenship real are addressed in a reader-friendly, yet conceptually and empirically rigorous format. The Journal of Corporate Citizenship (JCC) aims to publish the best ideas integrating the theory and practice of corporate citizenship in a format that is readable, accessible, engaging, interesting and useful for readers in business, consultancy, government, NGOs and academia. This peer-reviewed journal encourages practical, theoretically sound, and (when relevant) empirically rigorous manuscripts that address real-world implications of corporate citizenship in global and local contexts. Topics related to corporate citizenship can include (but are not limited to): corporate responsibility, stakeholder relationships, public policy, sustainability and environment, human and labour rights/issues, governance, accountability and transparency, globalisation, small and medium-sized enterprises (SMEs) as well as multinational firms, ethics, measurement, and specific issues related corporate citizenship, such as diversity, poverty, education, information, trust, supply chain management, and problematic or constructive corporate/human behaviours and practices. Journal of Environmental Planning and Management	Dr Kenneth Willis	1992	2001 is the journal's tenth year since re-launch. It has already established itself as a leading forum for up-to-date scholarly but accessible papers on all aspects of environmental planning and management. With contributions from leading international authors, the Journal publishes influential, high quality papers -an essential feature whether you are a subscriber, reader, contributor or all three. The Editors and International Editorial Advisory Board are drawn from around the world and are committed to encouraging researchers and practitioners to contribute to multidisciplinary and international debate in the field. The central aim is to focus on the integrated planning and management of the environment. Papers published encompass applied research, the application of new approaches and techniques, and the evaluation of policy and practice. The Editors are also pleased to consider short reports, speculations and commentaries on any aspect of environmental planning and management. Contributions from integrated and cross-disciplinary research teams and from policy makers and practitioners are especially welcome. Specific topics covered include: environmental policy and legislation sustainability, environmental change and environmental quality environmental planning natural resource planning and management environmental and strategic impact assessment, project appraisal and auditing environmental management environmental economics, valuation and natural resource accounting command and control and market-based instruments for environmental management innovations in policy and in practice international and cross-disciplinary practice and integration The journal's focus on research findings, policy analyses and practical management experiences provides a wide range of information, and makes it essential reading for researchers and other specialists confronted with practical, technical, social and political problems in the planning and management of the environment. Occasional Special Issues provide in-depth treatment of contemporary issues or research areas, and there is an extensive Book Review Section. Journal of Environmental Sustainability	John Morelli	2011	The goals of the Journal are to advance understanding of environmental sustainability and better define the roles and responsibilities of the professions in moving us toward a more environmentally sustainable future. The Journal defines environmental sustainability as meeting the resource and services needs of current and future generations without compromising the health of the ecosystems that provide them. The Journal is an open access green, double blind peer reviewed, journal for the dissemination of both theoretical and applied topics in the domain of environmental sustainability.	Springer	2159-2519	kein Zugriff	Kein		
Journal of Global Responsibility	Prof Grant JonesHead	2010	Organizations can become conditioned by competitive pressures to narrow their goals and adopt an overly instrumental logic, stripped of any meaning beyond simple profit. The survivalist impulse is self contradictory, because it reduces longer term viability. It also reduces the organization's legitimacy because a narrow focus diminishes the net contribution that the organization can make to society. The adoption of global responsibility is therefore an act of leadership, a voluntary and wilful deployment of the resources of an organization towards building sustainability. Sustainable leadership takes responsibility for the renewal of the resources available to the organization, rather than simply their use and waste. It sees moral authority as a resource to be built on and renewed with each act of careful and inclusive decision making. It contextualizes the organization's progress within the wider progress of society and takes a long term view. Sustainable leadership builds global responsibility into the culture of the organization. The Journal of Global Responsibility (JGR) wishes to publish rigorous scholarly explorations of these themes, especially where they build the capacity of organizations and their leadership to adopt a more global responsibility	Emerald	2041-2568	Zugriff bis 2010	Kein		
Management of Environmental Quality: An International Journal		2003	As the industrialized world advances in power, the increasing emphasis on technology, chemicals and intensive farming practices have created massive prosperity. But the price we pay for our wealth, in deteriorating health and disabling killer diseases, is regarded as too high. How do we tame the monster we have created? Management of Environmental Quality: An International Journal has become a highly respected international forum for the serious debate of environmental issues and their effect on human health. Mitigation and Adaptation Strategies for Global Change	Robert Dixon	1996	The Earth's biosphere is being transformed by various anthropogenic activities. Mitigation and Adaptation Strategies for Global Change addresses a wide range of environmental topics and pressing issues including global climate change processes and effects stratospheric ozone depletion acid deposition eutrophication of terrestrial and aquatic ecosystems species extinction and loss of biological diversity deforestation and forest degradation desertification soil resource degradation and land use change sea-level rise and destruction of coastal zones depletion of fresh-water and marine fisheries loss of wetlands and riparian zones and hazardous waste management. Response options to mitigate these threats or to adapt to changing environs are needed to ensure a sustainable biosphere for all forms of life. To that end Mitigation and Adaptation Strategies for Global Change provides a forum to encourage the conceptualization critical examination and debate on environmental change response options. Moreover the aim of this journal is to provide a forum to review analyze and stimulate the development testing and implementation of mitigation and adaptation strategies at regional national and global scales. One of the primary goals of the journal is to contribute to real-time policy development as environmental treaties and agreements are discussed and promulgated. Examples of mitigation and adaptation strategies policies and technical topics considered by this journal include emerging environmental technologies restoration and reclamation ecology non- renewable energy conservation renewable and alternative energy supply and use sustainable development of the biosphere bioengineering applications environmental and ecological economics renewable resource management integrated systems planning and development international environmental treaties and agreements environmental services valuation and equity alternative human infrastructure and transportation systems. Mitigation and Adaptation Strategies for Global Change is necessarily transdisciplinary in scope and welcomes full papers short communications book reviews and occasionally reviews of complex novel or emerging mitigation and adaptation strategies. All papers are subject to thorough peer-review. Prompt publication is a priority consistent with a high standard of quality and presentation. Social Responsibility Journal		2005	Social responsibility is an essential part of citizenship. The Social Responsibility Journal interprets this in the widest possible context. This international journal believes that in the global environment in which we live, authors should be able to speak to the greatest possible audience. It aims to promote an ethos of inclusion and this consequently means that a broad spectrum of issues and themes are covered in the journal.	Emerald	1747-1117	Zugriff bis 2010	Kein		
Sustainability Accounting, Management and Policy Journal	Carol Adams	2010	The journal will bring together work from a range of disciplines to promote a multi-disciplinary perspective to developing practical and policy solutions to improving the social and environmental sustainability performance of (private, public sector and non governmental) organizations and societies. (In addition to inter- and multi-disciplinary papers, the journal will take single disciplinary papers which are important to researchers/practitioners/policy makers/etc in the field, regardless of their main discipline. Such papers would be expected to be accessible to readers coming from different discipline perspectives.)	Emerald	2040-8021	Zugriff bis 2010	Kein		
International Journal of Sustainability in Higher Education		2000	International Journal of Sustainability in Higher Education (IJSHE) is the first international scholarly publication to specifically address the need for documentation and the dissemination of research, studies and projects on sustainability matters at higher education institutions. The issue of sustainability in a higher education context is, to some extent, a recent theme. Since over 600 universities worldwide have committed themselves towards sustainability by signing international agreements and convention such as the Bologna Charter, The Halifax Declaration, the Talloires Declaration and the Copernicus Charter for Sustainable Development, the journal provides a vital outlet for this emerging research field. The aim of the journal is to provide up-to-date information on new developments and trends, and to enable networking and information exchange on a global basis.	MDPI	2071-1050	Vollzugriff	Kein		
Journal of Sustainable Development	Dr. M.A. Dorgham	1998	Journal of Sustainable Development (JSD) is an international, double-blind peer-reviewed, open-access journal published by the Canadian Center of Science and Education. JSD carries original and full-length articles that reflect the latest research and developments in both theoretical and practical aspects of Environment, Economic and Society with Sustainability. It provides an academic platform for professionals and researchers to contribute innovative work in the field. The Journal of Sustainable Mobility	Dr. Michael Zhang	2014	<p>The Journal of Sustainable Mobility (JSM) is a new peer-reviewed journal that provides an interdisciplinary forum for the exchange of innovative and empirically sound research on sustainable transportation. The centrality of the journal is the sustainable developments of the automotive industry and road transport management systems, though research on other transport modes such as aviation and shipping contributes to our understanding of the future of sustainable mobility as a whole. To address the economic, environmental and societal concerns of the development of the transportation industry, the journal will take a transdisciplinary and holistic approach to gain a better understanding of the technologies that underlie the advancement of low-carbon vehicles, market demands for such vehicles, institutional change and corporate sustainability which determine the strategies of those businesses involved.</p> <p>The journal focuses on aspects of green mobility in the context of nature, enterprise and technology. In particular, it aims to explore the links between transportation, technological management and innovation, energy use, sustainable development and responsible business, presenting academic research alongside practical application in order to inform policy and practice. JSM is essential reading for academics, practitioners, policy-makers and others interested in the latest research and thinking on sustainable transport and mobility.</p>	Greenleaf	2053-2350		Kein
